

Evac D40 REC LED Recessed Emergency Light

Description

The EVAC D40 Recessed LED Emergency Light features LED technology providing an energy efficient light source with high output, which is ideal for a range of emergency lighting applications. Featuring a polarity reversal protection switch mode for the battery, making it ideal for jobs which have not been completed yet which require the power to be turned off from the mains. Available in white frame colour, complete with adaptor plate for larger holes. Ideal for commercial and interior applications such as apartments, shopping centres, hospitality etc.

Specification Features

- Input Voltage: 240V
- Power: 1.8w Power Consumption
- CCT: 4500K
- Lumen: 239lm
- Emergency: Non-Maintained
- Approval: Complies with AS2293.3- 2005+ AMD 1&2 Annex C / EMC compliant
- Classification: D40
- Battery: LiFePO4
- Approvals: Complies with AS2293.3- 2005+ AMD 1&2 Annex C / EMC compliant
- Features: Adjustable dish 95/145mm, depth 34mm, Overcharge & discharge protection, Polarity reversal protection for battery, Charge time 24 Hours.
- Warranty: 2 Year Warranty including battery
