

## HYDRO-120

### LED Batten

#### Description

The HYDRO LED Weatherproof Batten series is a direct replacement to traditional T8 and T5 Fluorescent battens. Custom designed to colour match concrete ceilings, and incorporating a "quick fix" solution to allow for ease and speed of installation. Constructed from high-quality and high impact resistant polycarbonate, with a high transparency frosted polycarbonate diffuser. Available in 600mm and 1200mm lengths, as well as Tricolour switchable: choose between Warm White 3000K, Neutral White 4000K, or White 5500K colour temperatures with the flick of a dip switch.. Suitable for domestic applications such as underground basements, garages, and outdoor areas. Also commercially for underground carparks. Choose between attached grey plastic clips or supplied Stainless Steel clips depending on your installation preference.
